Thanks For C, 1/2, or X

1966

A twenty-five year tradition comes to an end this year as Mr. Norman Kowalczyk, English teacher, retires from Vassar High School. Mr. C, 1/2, or X, as he is affectionately known by his students, has encouraged his students to excel in English and writing skills. Two generations of Vassar students have learned from him, have "suffered through folding papers correctly", and have come to respect the man and his ways. For many of us it is not until we leave that we begin to understand the many ways that he has influenced us. However, teaching isn't the only thing he did at V.H.S. For 23 years he was the voice of the Vulcans. Football games somehow won't be the same without "Raz, Dwa, Trzy" Polish for one, two, three, the traditional way Mr. "K" would start his broadcasts. We wish him well in all his future endeavors and are glad that he chose Vassar High School for his teaching career.

Seniors Gloria Coffey, Allyson Volz, Jeanne Fisher, Nanette Beulla, and Debbie Hill show spirit at the first pep assembly; "Hey Brian! Now that you are a senior, has your head grown any?" asks Jim Kuhnle; Maxine Pratt, an exchange student, learns the American tradition of "hunt-and-peck"; "Hey, Mr. Purigroski — What do I do now?, ponders Deb Brookins; "Excuse me, Minerva, may I "cut in"; Cindy Franks burning her botany. Ron Bauder waits his turn as Ray Orloff "breaks the rules" during the famous "105 Raindrop Tournament."

1982 Junior/Senior Prom

Michelle
 To a really sweet person who is
 actually shorter than me. (Don't
 worry, you'll probably grow a few
 more inches before you're done
 growing) you just might be taller
 than me & I don't start growing
 everybody with everything at
 you senior year. Take care of your
 friends & enjoy

To Our Readers,

This book is the final and lasting memory we, as the Class of 1982, have of our last year at Vassar High School. We hope that each time you look at it you will always remember your classmates and your Alma Mater.

A lot of work and frustration went into trying to make this yearbook special for all of you.

Mrs. Russell, thanks for taking the time to help us when nothing seemed to be going right and showing us how to do the things we didn't understand. Nick, thanks for all of your work on the cut-outs (even if we didn't use all of them!). A special thanks to Lynn for all of her time in getting the pictures we needed. Connie, thanks for putting up with my "blow-ups" and for staying around to help. To the copy ladies (Roberta, Trina, Ritta, Kim, and Regina), thanks for all the words and the typing. To Julie, Sandi, and Traci, I hope you learned something this year and have fun next year with your yearbook.

Sincerely,

Julie A. Evans

The first part of the document discusses the importance of maintaining accurate records in a business setting. It highlights how proper record-keeping can help in decision-making, legal compliance, and financial management. The text emphasizes that records should be organized, up-to-date, and easily accessible to relevant personnel.

Next, the document addresses the challenges of data management in the digital age. It notes that while digital storage offers convenience, it also introduces risks such as data loss, security breaches, and information overload. Solutions like cloud storage, encryption, and regular backups are suggested to mitigate these risks.

The third section focuses on the role of records in legal and regulatory contexts. It explains that businesses must adhere to various laws and regulations that require the retention of specific records for certain periods. Failure to do so can result in penalties and legal liabilities. The document provides a checklist of common records that businesses should maintain, such as contracts, invoices, and employee records.

Finally, the document concludes by stressing the long-term value of a well-maintained record system. It suggests that businesses should invest in training and technology to ensure their record-keeping practices are efficient and effective. Regular audits and updates to the record-keeping system are also recommended to keep it relevant and accurate over time.
